

G.R.
MANUFACTURING, INC.

PRODUCTION PAINT ASSISTANT

Full Job Description

G.R. Manufacturing, Inc. is seeking a talented **Production Paint Assistant** to join a diverse team to support production and manufacturing.

The Production paint Assistant candidate will be responsible for accepting only parts that are properly prepared for paint.

Other key responsibilities

- Candidate will be responsible for manually moving parts through the painting, flashing and drying sections of the paint system.
- Candidate will be responsible for the entire paint process, including but not limited to:
 - Mixing paints and solvents according to manufacturer's specifications
 - Correct operation of automated mixing equipment
 - Application of liquid paint to meet specifications using electrostatic and traditional paint guns
 - Assuring that parts reside in the flashing and drying sections of the paint system for the specified time
 - Inspection of work and correction to work as necessary
 - Periodic cleaning/flushing of paint/solvent delivery systems as required
- Candidate will be responsible for having maintenance of all paint system equipment accomplished as specified, whether scheduled with the Maintenance Department or as part of the paint work process.
- Candidate will be responsible for maintaining cleanliness and organization of the paint system and work area.
- Candidate will assist as needed in all areas of the paint line operation.
- Candidate will be responsible for following the policies as outlined in the G.R. Manufacturing, Inc. Employee Handbook.

Basic Qualifications

Candidate must possess a High School diploma or equivalent GED.

- Must be able to lift and carry up to 50 lbs.
- Candidate must be able to perform strenuous, repetitive work.
- Candidate must be able to work while wearing a respirator and protective clothing.
- Candidate must pass Pulmonary Function Test and Respirator Fit Test.
- Candidate should possess an attention to detail and desire to produce high quality parts.
- Candidate must be able to follow oral and written instructions and be a self-starter.

Other Qualifications

- Vocational training in industrial/automotive painting and at least 3 years' experience in this field.
